

GinGarby is a high quality gin, obtained by selecting botanicals that represent the excellence of the Marche region, combined and balanced with other overseas spices. We distill each botanical separately before mixing our ingredients according to a recipe that we have tried and perfected over the years, first by enthusiasts and then with the help of some of the leading Italian experts in the sector.

The gin is characterized by a fruity scent (with notes of the typical pink apple and peach), which is immediately perceived on the nose and which from the very first moment gives the GinGarby a unique imprint; these characteristics are also found at the moment of tasting, where you can also perceive the bouquet of Mediterranean flavors that perfectly balance the gin.

Botanicals

Juniper

Pink apple from Sibillini mountains

Peach from Valdaso valley

Mediterranean herbs

Spices of the world
